Sunset Cruise & Whale Watch

Our Professional Marine Naturalists share intriguing information and up-to date facts about the Whales while you listen to their unique songs on our hydrophone.

Over a thousand Pacific Humpback Whales migrate from Alaska each year, to vacation in the warm waters of the Hawaiian Islands. They birth their young and compete for a mate in the warm, shallow waters between Maui, Molokai and Lanai. Watching these playful '50 foot, 40-ton giants' dive elegantly, breach wildly, slap their pecks and tails is quite spectacular, and an unforgettable experience! **You will be picked up at 3:00 pm on the beach in front of the Westin Maui Resort & Spa. The cruise is from 4:00 6:00 pm. Beverages & Appetizers included**
